VOYAGER RACE SAILCLOTH CHOICE

Challenge crimpless warp - the best woven Dacron for tri-radial sails

Cruise Laminate - a durable laminate consisting of high modulus Polyester yarn and two layers of taffeta sandwiched between two layers of Polyester film

Performance Laminate - a laminate of high modulus Kevlar or Pentex yarns and a single layer of taffeta sandwiched between two layers of Polyester film

See separate information sheet for full details of the Hyde sailcloth range.

Hyde Sails Limited reserve the right to change these specifications in line with our policy of continuous improvement.
